# Milwaukee 5318-DE

## SDS Max Chisel Boot

**Item Number:** MI-5318DE

Our SDS Max Chisel Boot provides you with a solution for the regulation on respirable crystalline silica dust management (29 CFR 1926.1153). The SDS attachment is optimized for our MILWAUKEE® SDS Max Rotary Hammers for chipping applications with bull point and flat chisels up to 1-1/8" wide. It will work on competitive hammers. Its adjustable strap secures the hose away from the application, providing you with increased productivity. Attaching the chisel boot to our 8 Gallon Dust Extractor (8960-20) provides you with a complete OSHA Table 1 compliant solution.

## Features

- The MILWAUKEE® SDS Max Chisel Boot is OSHA Table 1 compliant, is optimized for bull point & flat chisels up to 1 1/8" wide.
