L.B. White Journeyman 360 OIL

Diesel Heater, Indirect-Fired, 360,000 BTU/Hr

Item Number: LB-JOURNEYMAN360OIL

The Journeyman 360 heater is an indirect-fired heating solution designed to provide clean and reliable air for construction sites and industrial applications. With its advanced technology, it ensures efficient heating without compromising air quality, making it suitable for a wide range of environments. Its robust construction and user-friendly design make it easy to transport and set up, allowing for quick deployment in various job sites. Whether used in construction projects or industrial facilities, the Journeyman 360 heater delivers consistent performance, keeping workspaces warm and comfortable while maintaining high standards of safety and reliability.

Specifications

Fuel Source	Dual Fuel
Heat Output (BTU/Hr)	360,000
Max Fuel Consumption	2.6 Gal/Hr
Burner Type	Beckett
Tank Size	40 Gal
Airflow (CFM)	2,000
Outlet Static Pressure (W.C.)	0.7 (2 x 12" ducts)
Duct Size	12" x 2 or 16" x 1
Horsepower	0.5 HP
Voltage (V)	120V
Amperage (A)	8A
Weight (LBS)	350
Dimensions	82" x 30.75" x 50.5"
Certification	US & Canada
