Milwaukee 48-38-2010C

10-ft Screed Bar

Item Number: MI-48382010C

Our Screed Bars have an extra-rigid, double triangle design to transmit consistent vibrations across the length of the bar, with minimal variability. These MILWAUKEE® screed bars are constructed from lightweight magnesium to reduce the weight of the screed when in operation.The concrete power screed bar utilizes a clamp design with no holes or hardware through the bar, allowing you to quickly attach the bar at any point on the machine.
