Patron SP-35

3" Submersible Sand Trash Pump, 1 HP

Item Number: PA-SP35

The Patron SP-35 submersible sand trash pump, with a 1 hp motor and 3-inch discharge, is a robust solution for efficiently transferring water with sand and debris. Its agitator ensures effective handling of solids, making it ideal for dewatering tasks in construction and excavation projects. With reliable performance and durability, the SP-35 pump is well-suited for handling challenging water conditions in various environments.

Features

- Compact, lightweight and easy to carry
- Double Mechanical Seal
- Built-In Thermal Protection
- Aluminum Die Cast / Cast Iron Construction
- Semi Vortex Impeller
- Agitator prevents clogging
- Capable of handling solids up to 1/4”

Specifications

Voltage (V)	115V
Horsepower	1 HP
Amperage (A)	12 A
Max Head	60 ft
Max Flow (GPM)	93
RPM	3,450
Cord Length	32 ft
Weight (LBS)	37
Height	15"
Width	10-1/16"
Pump Oil Type	AW32 or VG32 Hydraulic Oil
Certification	UL/cUL
Warranty	2 Years
