Patron L-200

200W LED Light Cart

Item Number: PA-L200

The 200W LED Light Cart is engineered for demanding construction environments, offering robust illumination and versatility. With its powerful 200-watt LED array, it delivers bright, high-quality light to enhance visibility and safety on job sites. The rugged, weather-resistant design ensures durability against harsh conditions, while the cart's mobility features, including heavy-duty wheels and an adjustable mast, allow for easy repositioning and height adjustment. Ideal for large-scale projects, this light cart provides consistent, efficient lighting, helping to boost productivity and maintain high safety standards.

Features

- 45% more lumen output than the competition
- Heavy-duty LED light head with protective cage
- Best-in-class maximum illumination area
- Rugged welded frame with 10” flat-free tires
- Adjust light direction a full 180 degrees vertically
- Tool-free set-up and adjustments

- Optional generator mounting straps available
- 3-stage mast design minimizes storage height
- Suitable for wet locations
- Weather-proof cord connector
- NRTL certified (CAN & US) to CSA requirements
- 1-Year Warranty

Specifications

Wattage (W)	200 W
Height	Max: 9.8 ft Min: 4.5 ft
Amperage (A)	1.68 A
Lumens	32,000
Cord Length	17 ft x 18 AWG
Illumination Area	13,788 sq/ft
Weight (LBS)	74 LBS
Certification	NRTL
Warranty	1 Year
