Milwaukee 5518-21

Rotary Hammer, 1-3/4", SDS Max

Item Number: MI-551821

Our 1-3/4” SDS MAX Rotary Hammer, designed for all-day concrete drilling and chipping, has a powerful 15A motor capable of delivering 8.1 ft-lbs of impact energy for demanding applications. Our AVS Anti-Vibration System is designed to reduce vibration, limit fatigue, and increase jobsite productivity, while AUTOSTOP™ prevents over-rotation in a tool bind-up. This rotary hammer offers maximum versatility with two-mode operation, 12-position chisel rotation, and a variable-speed dial with up to 6-speed settings. This 1-3/4” SDS MAX Rotary Hammer delivers the capabilities needed to complete a variety of applications when power is readily available.

Features

- Powerful 15-amp motor delivers 8.1 ft-lbs (11 J) of impact energy
- AVS Anti-Vibration System minimizes handle vibration for maximum comfort
- 2 Modes: Rotary hammer and hammer only
- Chisel Lock allows the user to lock the trigger during chipping applications
- AUTOSTOP™ prevents over rotation in a tool bind up
- Variable Speed Dial: Up to 6 speed settings for maximum control

- 12-Position chisel adjustment allows the user to adjust the bit for operating versatility
- 5-Year Warranty

Specifications

Bit Capacity	1-3/4"
Impact Energy	8.1 ft-lbs
No Load Speed	385 RPM
Weight (LBS)	21.65 lb
Amperage (A)	15 A
Voltage (V)	120V
Length	19.1"
