Milwaukee 48-35-3700

Rotary Laser Tripod

Item Number: MI-48353700

Our Rotary Laser Tripod is a secure laser mounting solution to support a wide range of applications. Its durable aluminum design withstands more impacts and tips on the jobsite. The smoother height adjustment allows the legs to be quickly raised and lowered, making it easier to set up in any environment. The Rotary Laser Tripod also has a lightweight frame making it easy to transport on and off the jobsite and includes a shoulder strap for added convenience. Our tripod is equipped with a 5/8" x 11 mounting thread and is compatible with all MILWAUKEE® Rotary Lasers. Backed by a 3-year tool warranty.
