CP P5 Pump

Item Number: PA-P85129183B

The Centurion P5 Direct Drive Triplex Pump (85.129.183B) is a compact, industrial-grade pump engineered exclusively for electric pressure washers. Delivering 2,500 PSI and 2.5 GPM, it offers smooth, quiet performance through its triplex ceramic plunger design and precision-machined brass manifold. Built for wall-mounted systems, enclosed wash bays, and portable electric units, the P5 provides reliable pressure, low maintenance, and long service life. Its built-in unloader and fixed soap injector make it a professional-level solution for anyone upgrading an electric-powered cleaning setup.
