Centurion Pump (CP) CTB3S

Triplex Pump, 24mm Shaft, 5100 PSI, 5.2 GPM

Item Number: PA-P85120159B

The Centurion CTB3S Belt Drive Triplex Pump represents the highest echelon of commercial and industrial pressure washer pump technology. Designed and manufactured by CP, a world-class leader in pump engineering, the CTB3S is purpose-built for contractors, industrial maintenance crews, and facility operators who demand uncompromising power and durability. Delivering an exceptional 5,100 PSI at 5.2 GPM, this pump combines massive cleaning power with efficient, low-RPM operation. The result is a system that runs cooler, quieter, and longer — the hallmark of professional-grade performance. With a belt drive system, brass manifold, ceramic plungers, and an external unloader, the Centurion CTB3S provides consistent high-pressure performance without the wear, vibration, or overheating that plague standard direct-drive pumps. Whether paired with a gas or electric motor, the CTB3S ’s heavy-duty build and precision design make it the trusted heart of your professional cleaning system.

Specifications

Shaft Diameter	24 mm
