
L.B. White Tradesman K220 Plus

Kerosene Heater, Direct-Fired, 220,000 BTU/Hr

Item Number: LB-TRADESMANK220PLUS

When using gas is not convenient, or a self-contained fuel source is desired, Tradesman kerosene heaters provide instant, efficient directional heat.

Features

- Switchable dual heat at 180,000 (Low) up to 220,000 btu/hr (High)
- Kerosene, #1 and #2 diesel or #1 fuel oil
- Dependable dual-prong electronic spark ignition
- Durable composite fuel fittings for max life
- Fuel gauge indicates remaining run time
- Onboard fuel pressure gauge
- Comfort control thermostat
- Wheels and handles make it easier to maneuver
- Threaded drain plug
- Direct-fired = 99.97% fuel efficiency
- Auxiliary 110V power receptacle

- Built in air diagnostic system for troubleshooting ease
- Heavy duty enclosed motor provides longer life

Specifications

Fuel Source	Kerosene
Heat Output (BTU/Hr)	220,000
Airflow (CFM)	650
Max Fuel Consumption	1.36 - 1.66
Tank Size	13
Run Time (approx)	8-10 Hrs
Amperage (A)	3.7
Dimensions	41.8" x 23.1" x 26.1"
Weight (LBS)	73.2
Certification	US/Canada
Warranty	2 Years
