Patron TA65

Rammer, 11", 166 LBS, Honda

Item Number: PC-TA65

The TA65 is our largest rammer with an 11” wide base plate. This machine features the highly adept and purpose-built Honda GXR120 rammer engine that is designed to persist through the most difficult compaction conditions. Patron rammers are built with high quality components and are designed with easy access to service points, so most maintenance can be done on site. The slim handle makes this unit perfect for jobs in tight quarters.

Features

- Sealed, multi-function tank with throttle control
- Air breather system for easy start
- Easy access to all daily service points
- Air filter indicator
- Low Oil Alert
- Efficient shock absorbers
- Lifting hook
- Hour meter
